

CEMENT

AND

LIME MANUFACTURE

Published by Concrete Publications, Ltd., 14 Dartmouth Street, London, S.W.1

INDEX TO VOL. XXV, 1952

PAGE	PAGE		
Africa, A new cement works in North	18	Kuhl, H., on Specifications for cements and the	81
Air-entrained cement, Effect of temperature and		" on Trends of development	
surface area on	104	" on Fifty years of cement chemistry and	19
Alkali phases in Portland cement clinker, by T. F.		manufacture	
Newkirk	112	Lafuma, H., on Expansive cements	111
Alumina, Aqueous cementitious systems containing		Levin, Ernest M., Lansing S. Wells, and Walter F.	
lime and, by Harold Steinour	13	Clarke on The soundness of lime putty	77
Aqueous cementitious systems containing lime and		Maquori, G. L., and V. Cirilli on The ferrite phase	111
alumina, by Harold H. Steinour	13	Mohir, T., H. Togai, and T. Yamanouchi on	
Argentine, New cement works in	34	Blastfurnace slag cement	101
AUTHORS :		Naito, R., on Setting of cement	101
Adams, M., and G. L. Kalousek on Hydration of		Newbury, A. D., on Electrical arrangements in	85
cement at medium temperatures	17	modern cement factories abroad	
Asano, M., T. Yamanouchi, and R. Kondo on		Newkirk, T. F., on The alkali phases in Portland	112
Heat of hydration of slag cements	17	cement clinker	
Baker, M. C., on Chilanga cement works, Northern		The effect of sulphur in clinfer	117
Rhodesia	63	Nurse, R. W., on The dicalcium silicate phase	112
Bernal, J. D., on The structures of cement		Ohno, Y., on Determination of SO ₃	102
hydration compounds	105	Ordway, F., on Tricalcium aluminate	112
Blanks, R. F., and J. L. Gilliland on False set of		Parker, T. W., on The constitution of aluminous	
Portland cement	28	cement	112
Bogue, R. H., on The constitution of Portland		Schwaibl, F. G., on A new vertical lime kiln	29
cement clinker	106	Steinour, Harold H., on Aqueous cementitious	
Chujo, K., on Hardness of cement		systems containing lime and alumina	13
Clarke, Walter F., Ernest M. Levin, and Lansing S.	103	" The reactions and thermo-	
Wells on The soundness of lime putty	77	chemistry of cement hydration at ordinary	
Collins, A. R., on Developments in the design and		temperature	113
construction of concrete structures	106	Swazye, M. A., on Development of cements for	
Davis, C. E. S., and H. E. Vivian on The reaction	7	special uses in the United States	114
of Portland cement with opal		Swift, H., on New cement works in Uganda	35
Freyninet, E., on A new view of the setting of	1	Tanaka, N., and K. Watanabe on Effect of	
cement and the nature of concrete		chemical composition and fineness on the	
Gilliland, J. L., and R. F. Blanks on False set of		weathering of cement	101
Portland cement	28	Thorvaldson, T., on Chemical aspects of the	
Gooding, P., and P. E. Haistead on The early		durability of cement products	114
history of cement in England		Togai, H., T. Yamanouchi, and T. Mohir on	
Gygi, H., and F. Guye on Thermodynamics of the		Blastfurnace slag cement	101
cement kiln		Ueda, M., on Burning of cement	102
Hansen, W. C., on Oil well cements		Vivian, H. E., and C. E. S. Davis on The reaction	
Heilmann, T., on The influence of the fineness of		of Portland cement with opal	7
cement raw mixtures on their burnability		Watanabe, K., and M. Kajii on Fineness of raw	
Inslay, H., on Interstitial phases in Portland		materials and strength of cement	101
cement clinker	108	Watanabe, K., and N. Tanaka on Effect of	
Jeffrey, J. W., on The tricalcium silicate phase		chemical composition and fineness on the	
Jones, F. E., on The physical structure of cement		weathering of cement	
products and its effect on durability	108	Wells, Lansing S., Walter F. Clarke, and Ernest M.	
Kajii, M., and K. Watanabe on Fineness of raw		Levin on The soundness of lime putty	77
materials and strength of cement		Wuerpel, C. E., on Masonry cement	115
Kalousek, G. L., on The reactions of cement hydration		Yamanouchi, T., and K. Kondo, on Composition	
at elevated temperatures		of slag cements	101
and M. Adams on Hydration of		R. Kondo, and M. Asano, on Heat	
cement at medium temperatures		of hydration of slag cements	103
Kami, Y. Mura, and T. Yoshii on Measuring the		T. Mohir, and H. Togai on Blast-	
degree of burning of clinker	31	furnace slag cement	101
Keil, F., on Slag cements		Yoshii, T., and Y. Mura Kami on Measuring the	
Kondo, K., and T. Yamanouchi on Composition		degree of burning of clinker	31
of slag cements	110	Blastfurnace slag cement, by T. Yamanouchi, T.	
Kondo, R., M. Asano, and T. Yamanouchi on Heat		Mohir, and H. Togai	101
of hydration of slag cements	103	slags	33

INDEX—continued from previous page	PAGE	PAGE	
Burning of cement, by M. Ueda	102	Magnesia in Portland cement, Determination of free	18
" clinker, Measuring the degree of, by T. Yoshii and Y. Mura Kami	31	Manufacture, Fifty years of cement chemistry and, by Dr. Hans Kuhl	19
Canada, New cements works	103	Masonry cement, by C. E. Wuerpel	115
Canadian specifications for Portland cement, Revised	6	Mozambique, New cement works in	34
Cellular concrete	124	Moisture, Unset cement resistant to	8
Cement industry in Great Britain	75	Morocco, The cement industry in French	100
Census of production of the cement industry in Great Britain	16	Mortar cube tests, Vibrated	56
Ceylon, Cement works in	115	Norway, Cement production in	59
Chemical composition and fineness on the weathering of cement, Effect of, by K. Watanabe and N. Tanaka	101	Oil well cements, by W. C. Hansen	106
Chemistry and manufacture, Fifty years of cement, by Hans Kuhl	19	Opal, The reaction of Portland cement with, by H. E. Vivian and C. E. S. Davis	7
" of cement, Symposium on the Chilanga cement works, Northern Rhodesia, by M. C. Baker	105	Paraguay, Cement works in	34
Clinker, Effect of sulphur in, by T. F. Newkirk	117		
" Interstitial phases in Portland cement, by H. Insley	108		
" Measuring the degree of burning of, by T. Yoshii and Y. Mura Kami	31		
" Studies of the constitution of Portland cement	106		
" The alkali phases in Portland cement, by T. F. Newkirk	112	PATENTS RELATING TO CEMENT:	
Concrete, A new view of the setting of cement and the nature of, by E. Freyssinet	1	Cellular concrete	124
Dicalcium silicate phase, The, by R. W. Nurse	112	Composition of cement	79
" The structure of, by R. W. Nurse	33	Manufacturing process	80
Dominica, Cement production in	34	Non-shrinking cement	79
Durability of cement products, Chemical aspects of the, by T. Thorvaldson	114	Slurry, Composition of	80
" The physical structure of cement products and its effect on, by F. E. Jones	109	Phosphoric-bearing raw materials, Proportioning	33
Electrical arrangements in modern cement factories abroad, by A. D. Newbury	85	Phosphoric anhydride, Treatment of limestone containing	35
Expansive cements, by H. Lafuma	111	Phyllite as a raw material for cement	63
Factory in India, New cement	121	Raw materials and strength of cement, Fineness of, by K. Watanabe and M. Kajii	101
Ferrite phase, The, by G. L. Malquori and V. Cirilli	111	" mixtures on their durability, The influence of the fineness of cement, by T. Heilmann	107
Fineness on the weathering of cement, Effect of chemical composition and, by K. Watanabe and N. Tanaka	101	Research on cement	33
Flue gases Analysis of	57	" Japanese	101
Fuel plant, A pulverised	25	Rhodesia, A new kiln for Chilanga cement works, Northern, by M. C. Baker	63
Gases, Analysis of flue	57	" Proposed new cement works in	8
Germany, A lime works in	60	Set of Portland cement, False, by R. F. Blanks and J. L. Gilliland	28
Great Britain, The cement industry in	75	Setting of cement, by R. Naito	101
" " " " Census of	16	" and the nature of concrete, A new view of the, by E. Freyssinet	1
Haiti, Cement works in	18	Sieves, A mechanical vibrator for test	61
Hardness of cement, by K. Chujo	103	" The use of fine-mesh	59
High-alumina cement, The constitution of, by T. W. Parker	103	Slag cements, by F. Kiel	111
History of cement in England, The early, by P. Gooding and P. E. Halstead	106	" Composition of, by T. Yamanouchi and K. Kondo	101
Holland, The extension of a cement works in	9	" Heat of hydration of, by T. Yamanouchi, K. Kondo, and M. Asano	103
Honduras, Proposed cement works in	55	Slag, Blastfurnace	38
Hydration at elevated temperatures, The reactions of cement, by G. L. Kalousek	109	SO ₂ , Determination of, by Y. Ohno	102
" at ordinary temperature, The reactions and thermochemistry of cement, by H. H. Steinour compounds, The structures of cement, by J. D. Bernal	113	Specification for Portland cement, A new Israeli standard	84
" of cement at medium temperatures, by G. L. Kalousek and M. Adams	105	Specifications for cements and the trends of development, by Dr. H. Kuhl	81
India, New cement factory in	121	Canadian " " Portland cement, Revised	6
Indo-China, The cement industry in	103	Sulphur in clinker, Effect of, by T. F. Newkirk	117
Iraq, Cement factory for	34	Surface area on air-entrained cement, Effect of temperature and	104
Ireland, Cement supplies in Northern	59	Symposium on the chemistry of cement	105
Israeli standard specification for Portland cement, A new	84	Sweden, The cement industry in	100
Japanese research on cement	101	Temperature and surface area on air-entrained cement, Effect of	104
Jordan, Cement factory for	12	Temperatures, Hydration of cement at medium, by G. L. Kalousek and M. Adams	17
Kiln, A 500ft. rotary	122	" The reactions of cement hydration at elevated, by G. L. Kalousek	109
" A new vertical lime, by F. G. Schwalbe	29	" The reactions and thermochemistry of cement hydration at ordinary temperature, by H. H. Steinour	113
" Thermodynamics of the cement, by H. Gygi and F. Guye	5	Test for workability of lime putty	5
Kilns, Motors for rotary	78	Tests, Vibrated-mortar cube	56
Lime and alumina, Aqueous cementitious systems containing, by Harold H. Steinour	13	Tricalcium aluminate, by F. Ordway	112
" kiln, A new vertical, by F. G. Schwalbe	29	" silicate phase, The, by J. W. Jeffrey	108
" putty, Test for workability of	5	" The structure of	33
" putty, The soundness of, by Lansing S. Wells, Walter F. Clarke, and Ernest M. Levin	77	Turkey, Proposed new cement works in	55
" works in Germany	60	Uganda, New cement works in, by H. Swift	35
		Underwater construction, Cement for	32
		U.S.A., Cement production in the	34
		" Development of cements for special uses in, by M. A. Swazey	114
		Venezuela, Cement production in	100
		" New cement plant for	100
		Vibrator for test sieves, A mechanical	61
		Weathering of cement, Effect of chemical composition and fineness on the, by K. Watanabe and N. Tanaka	101
